2 VARIANTS TO CHOOSE FROM

There are two variants available under this plan. Given below is a brief description of each of them.

- **Variant 1: “Wealth for Milestones”:** This Variant is a whole life savings design with lump sum payable at the end of survival benefit period. In this variant no income benefit is available.
- **Variant 2: “Long Term Income”:** In this variant the income benefit as well as loyalty income booster shall be payable during the income period, in arrears, as per income pay-out frequency chosen, for example, end of year for annual pay-out mode. At the end of the income period, a Return of Premium will be paid as well. Pay-out frequency options available are annual, semi-annual, quarterly and monthly.

For both the variants, the policy will continue as long as the life assured survives, with death benefit payable upon death of the life assured.

Please note:

- Under variant 1 (Wealth for Milestones) the Survival Benefit Period needs to be opted. Available Survival Benefit Period options are given in the table below:

Premium payment term	Survival Benefit Period
5,6,8,10	15 to 20, 25 & 30
12	17 to 20, 25 & 30

- Under variant 2 (Long Term Income), the Survival Benefit Period shall be equal to Premium Payment Term + Deferment Period + Income Period
- Available income period options are provided in the table below:

Variant	Income periods available
2 – Long Term Income	20, 25 and 30 years

'Deferment period': What it means for you

- In variant 2 (long term income), this plan gives you an additional flexibility to plan your income amount and income start year.
- Longer you wait, more is the income.
- This is made possible through the 6 income deferment period options available: 0,1,2,3,4 & 5 years.
- In case of income deferment 0, the annual income shall start from the end of year PPT+1. In case of income deferment 1, the annual income shall start from the end of year PPT+2, and so on
- Similar logic shall apply for all other income deferment period options.

Under both variants 1 & 2 you can also avail the option benefit of [&]Policy Continuance Benefit. Under [&]policy continuance benefit (PCB) option, in case of death of the life Insured, the policy continues as it would have in case the life insured was alive, with the survival benefits payable in future as and when due, without having to pay any future premiums. In order to opt for PCB, the policyholder and life insured has to be same. Note that PCB can be opted only at inception, this option once chosen cannot be opted out during the entire policy term.

BENEFITS IN DETAIL

This section details the benefits payable during the pay-out period as per the variant chosen.

Survival Benefit

Survival benefit is payable if the Life Insured is alive on the due date of benefit provided the Policy is in-force. Please refer the table below for details.

Variant	Survival Benefit
1-Wealth For Milestones	<ul style="list-style-type: none">• Lump Sum equal to Return of Premium (RoP), which is 100% of Total Premiums Paid, payable at the end of the survival benefit period, plus• Lump sum [#]guaranteed milestone benefit, payable at the end of survival benefit period, plus• Lump sum Accrued [#]guaranteed additions, payable at the end of survival benefit period

Variant	Survival Benefit
1-Wealth For Milestones	<p>Both #guaranteed milestone benefit and #guaranteed addition shall be expressed as a percentage of total premiums paid. While both RoP and #guaranteed milestone benefit shall fully accrue at the inception of the policy, #guaranteed addition benefit shall be split in 4 equal parts, each part accruing at the start of the last four policy years of the survival benefit period, provided the policy is either premium paying or fully paid up.</p> <p>Both milestone and #guaranteed addition rates vary by age, premium band and PT/PPT combination. For more details on the rates please refer to the Company Website.</p>
2-Long Term Income	<ul style="list-style-type: none"> • Income benefit, payable each year during the income period, plus • Loyalty income boosters, payable each year during the income period, plus • Lump sum equal to Return of Premiums (RoP), which is 100% of Total Premiums Paid, payable at the end of survival benefit period <p>Where loyalty income booster amount is equal to 20% of income benefit amount.</p> <p>While income benefit fully accrues at the inception of the policy, annual loyalty income booster shall accrue at the start of each year after the income deferment period ends and shall be payable every year during the income period.</p>

Please Note:

- Income Benefit is payable during the income period.
- Loyalty income booster shall accrue after the income deferment period ends and will be payable every year during the income period, provided all premiums have been paid during the premium payment term.
- The Income Benefit including the loyalty income booster, if any shall be payable in arrears as per chosen income pay-out frequency, for example, at the end of year for annual pay-out mode and end of month for monthly pay-out mode. Pay-out frequency options available are annual, semi-annual, quarterly and monthly for variants.
- Income Benefit (% of Annualised Premium) rates are provided in the premium rates table available on the company website.
- You may choose to receive the sum of your income benefit and loyalty income booster (both together) at annual, semi-annual, quarterly and monthly frequency. Please refer section 'Option to choose the payment frequency for Income Benefit and loyalty income booster' for details.
- Option is available to accrue any of the above benefit(s). Refer section 'Option to Accrue the Applicable Survival Benefit' for details.

Maturity Benefit

Maturity benefit is not available under this plan.

Death Benefit

Depending upon whether you have opted for &Policy Continuance Benefit (PCB) at inception or not, the death benefit under this plan varies. Please refer to the section "Important Definitions" in the product prospectus for details on specific terminologies.

i) When PCB is not opted by you

If the Life Insured dies during the Policy Term provided the Policy is in-force or fully paid-up, the Death Benefit payable shall be higher of:

- i) #Guaranteed Death Benefit

ii) 100% of Surrender value applicable as on date of death

Where, *Guaranteed Death Benefit payable shall be higher of:

i) Sum assured on death

ii) 105% of (Total premiums paid plus underwriting extra premiums plus loadings for modal premiums) as on the date of death of life insured

Any accrued survival benefit, if not already paid shall be paid in addition to the death benefit. Please refer to section 'Option to accrue the applicable survival benefit' for details.

ii) When PCB is not opted by you

If the Life Insured dies during the Policy Term provided the Policy is in-force or fully paid-up, the Benefit Payable is:

i) *Guaranteed Death benefit; plus

ii) *Policy continuance benefit (PCB)

1) *Guaranteed Death Benefit* shall be higher of

i) Sum assured on death

ii) 105% of (Total premiums paid plus underwriting extra premiums plus loadings for modal premiums) as on the date of death of life insured

Any accrued survival benefit, if not already paid shall be paid in addition to the death benefit. Please refer to section 'Option to accrue the applicable survival benefit' for details.

2) *Policy continuance benefit: All future survival benefits shall be payable as and when due in future without any need for the premium payment.

For clarity, all future survival benefits shall be paid to the beneficiary as and when due during the survival benefit period, as would have been the case had the Life Insured been alive and would have been paying premiums.

Please note that PCB is only available during the survival benefit period as post survival benefit period, only *guaranteed death benefit is available. Therefore, if PCB gets triggered during the survival benefit period, the policy shall terminate at the end of the survival benefit period. In case of death of the life insured post survival benefit period, the *guaranteed death benefit shall be paid and the policy will be terminated.

FLEXIBILITIES AVAILABLE UNDER THE PLAN

“SAVE THE DATE”: Option to avail Income on date of your choice

The income is payable on the date of the policy anniversary by default under Long Term Income Variant. However, you have the flexibility to receive income on any date other than the policy anniversary.

- This option is available only in case the income payment frequency is annual.
- This option is available only at inception and no change will be allowed during the policy term.
- Pro-rated income shall be payable in the first and last year of the income period in case the chosen income date is different from the policy anniversary date.

Option To Choose The Payment Frequency For Income Benefit And Loyalty Income Boosters

You may receive the income benefit and loyalty income boosters at a monthly, quarterly, semi-annual and annual frequency under Long Term Income Variant.

- This option can be exercised at the policy inception or any time during the Survival Benefit Period.
- Both income benefit and loyalty income boosters will be payable at the same chosen frequency.
- The payment frequency can be chosen at inception or can be changed anytime during the policy term by submitting a request at least 30 days before the policy anniversary. In case of change of payment frequency, the change will be effective from the next policy anniversary.
- Income is payable in arrears for the chosen frequency during the income period, for example at the end of the year for annual frequency and end of month for monthly frequency.

- Income for other than annual frequency shall be equal to:

Payment Frequency	Income Instalment
Semi-Annual	0.49 * Annual Income
Quarterly	0.24 * Annual Income
Monthly	0.08 * Annual Income

Option To Accrue The Applicable Survival Benefit

This plan allows you to accrue all of your applicable survival benefits. This option can be chosen or cancelled anytime during the policy term.

- The policyholder can choose to accrue all applicable survival benefits including return of premium, milestone benefit, #guaranteed addition, #guaranteed income benefit and loyalty income booster from the date of payment of the respective survival benefit.
- In order to opt in or opt-out of this option, you should submit a request to the company 30 days before the policy anniversary and will get in-force from the subsequent policy anniversary. However, any change you make to the option to accrue will be applicable for a minimum of 1 policy year.
- The accrued benefit will be accumulated at interest rate equal to the "RBI Bank Rate + 1%". The bank rate is published by RBI on its website and this rate will be reviewed annually. The 'Bank Rate' for the previous financial year ending 31st March (every year) will be considered. As the interest rate will be reviewed at the beginning of each financial year, any change in this interest rate will be applicable from 1st July to 30th June to allow sufficient time for making changes in the policy administration system. The current Bank Rate, as applicable at 31st March 2023, is 6.75% p.a.
- The accrued benefit can be withdrawn partly/fully at any time during the policy term. The balance amount will keep accumulating and accrued benefit (if any) shall be payable along with benefits at the time of termination of the policy on death or surrender.
- Whenever you opt for accruing your benefits, your pay-out frequency would automatically be changed to annual, irrespective of the payment frequency chosen earlier. However, upon cancellation of accrual, you may choose to avail your payments monthly or annually.

You can choose to accrue your applicable Income benefit (the sum of income and loyalty income boosters together) and partial accrual shall not be allowed.

Settlement Options

You have the flexibility to break your death benefit and take them in instalments.

Death Benefit as settlement

Two settlement options are available to receive the 'Death Benefit' as Settlement:

- Lump sum benefit:** Take the entire 'Death Benefit' as lump sum.
- Regular Monthly/Annual Income for 5 years:** Take 22.10% of 'Death Benefit' as annual income payable for 5 years, or 1.88% of 'Death Benefit' as monthly income payable for 60 months. The income will be payable from the monthly policy anniversary following the date of death of Life Insured. If the date of death is same as the policy monthly anniversary date, then the monthly income will be payable from date of death.

The following conditions shall apply.

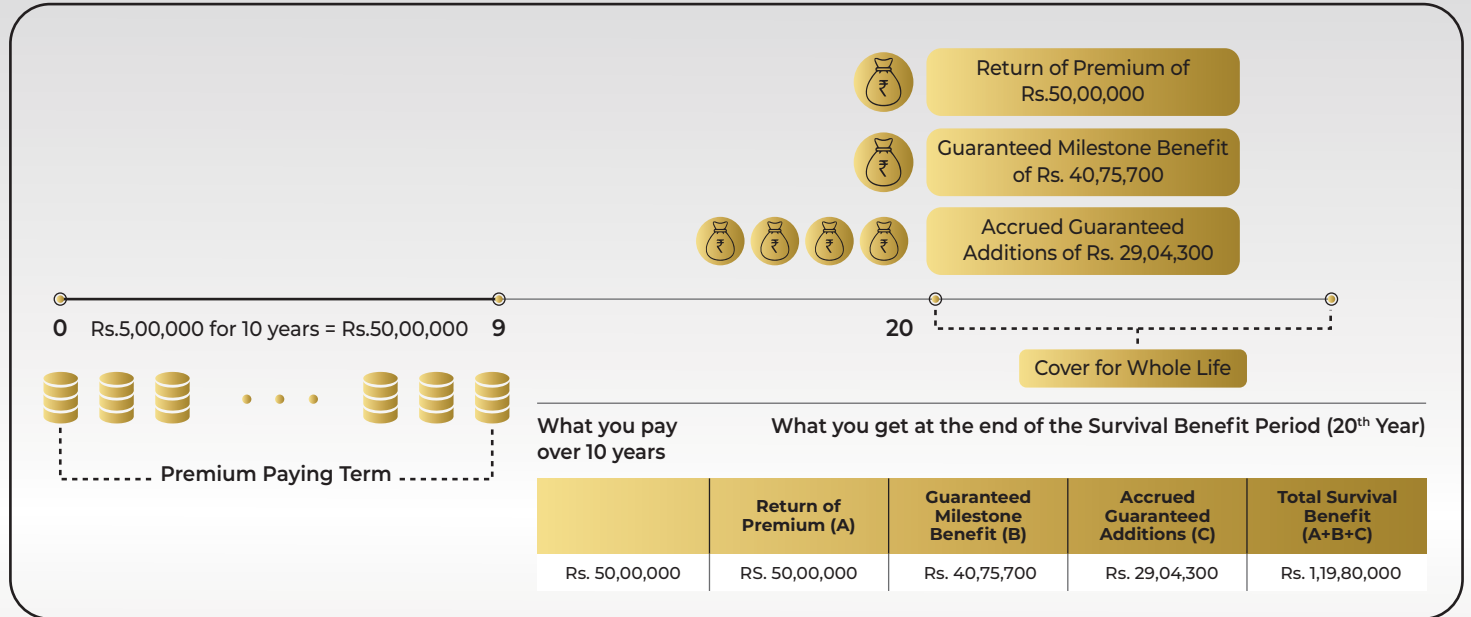

- At any time during the income phase, future remaining income payouts can be commuted. Present value of all future payouts discounted at the rate of 5.25% p.a. shall be payable as commuted value. However, the company has the right to review the Income Factor and the basis for calculating the Income factors from time to time based on the change in interest rate, subject to prior approval of IRDAI.
