PART C
POLICY FEATURES, BENEFITS AND PREMIUM PAYMENT
1. BENEFITS
1.1. DEATH BENEFIT

1.1.1. If the Policy is in force, provided all the due Premiums have been paid and is not under Reduced Paid Up Mode, then, upon death of the Life Insured, during the Policy Term, We will pay the Guaranteed Death Benefit to the Claimant as per the Plan Variant selected by You:

Plan Variant	Death Benefit
Regular Cover	The Sum Assured on Death will be equal to the Base Sum Assured selected at the Date of Inception of Policy. The Guaranteed Death Benefit will be payable on death.
Rebalancing Cover	<p>The Base Sum Assured selected at the Date of Inception of Policy is divided into two components: The Life Cover Sum Assured, and the Accidental Death Benefit Sum Assured.</p> <ul style="list-style-type: none"> • At the Policy's inception, the Life Cover Sum Assured is set at 10% of the Base Sum Assured, while the Accidental Death Benefit Sum Assured is set at 90% of the Base Sum Assured. • For policies that are in force, the Life Cover Sum Assured will increase by 10% of the Base Sum Assured (calculated using simple interest) on each Policy Anniversary, starting from the first anniversary. The Accidental Death Benefit Sum Assured will decrease by the same percentage annually. <ol style="list-style-type: none"> 1. Death Benefits: The Sum Assured on Death is defined below: Accidental Death: If the Life Insured dies due to an Accident, the total Base Sum Assured (which includes both the Life Cover Sum Assured and the Accidental Death Benefit Sum Assured, as applicable at that time) will be paid as a lump sum as Death Benefit. 2. Death due to other causes: If the Life Insured dies from any cause other than an Accident, in that case only the applicable Life Cover Sum Assured, as of that time, will be paid as a lump sum as Death Benefit. <p>Important Notes:</p> <ul style="list-style-type: none"> • The Accidental Death Benefit Sum Assured will reduce to zero once the Life Cover Sum Assured equals the Base Sum Assured. • However, if an Accident occurs during the Policy Term while the Accidental Death Benefit Sum Assured is still in place, and the Life Insured dies due to the same Accident after the Accidental Death Benefit Sum Assured has become zero, a claim will still be paid if death occurs within 180 days of the Accident. • The payment of the Accidental Death Benefit Sum Assured is subject to the exclusions outlined in Clause 5.2 of Part F. No Accidental Death Benefit Sum Assured will be payable if the Accidental Death is directly or indirectly caused, occasioned, accelerated, or aggravated by the reasons specified in Clause 5.2 of Part F (exclusions for accident cover). • The Guaranteed Death Benefit will be payable on death.
Early ROP Plus	Sum Assured on death will be equal to the Base Sum Assured up to the first policy anniversary, falling after the Life Insured attains higher of: (i) Age 60 or (ii) the Age on the Date of Commencement of Risk plus the Premium Payment Term plus 10 years. However, in case of death of the Life Insured after this point, the Sum Assured on Death will be equal to 50% of the Base Sum Assured and will remain

	at this reduced level for the remainder period of the Policy Term. The Guaranteed Death Benefit will be payable on death.
Smart Cover	The Sum Assured on Death will be equal to 150% of the Base Sum Assured until the 15 th Policy Anniversary and then 100% of the Base Sum Assured after the completion of the 15 th Policy Anniversary. The Guaranteed Death Benefit will be payable on death.
Return of Premium	The Sum Assured on Death will be equal to the Base Sum Assured. The Guaranteed Death Benefit will be payable on death.
Whole Life Cover	Sum Assured on death will be equal to the Base Sum Assured up to the first policy anniversary, falling after the Life Insured attains higher of: (i) Age 60 or (ii) the Age on the Date of Commencement of Risk plus the Premium Payment Term plus 10 years. However, in case of death of the Life Insured after this point, the Sum Assured on Death will be equal to 50% of the Base Sum Assured and will remain at this reduced level for the remainder period of the Policy Term. The Guaranteed Death Benefit will be payable on death.
Income Protection Cover	<p>We will pay the Guaranteed Death Benefit in the form of ‘monthly income applicable at the time of death of Life Insured’, commencing from the end of the Policy month on or after the date of intimation of death and continue for each Policy month till higher of 120 months or the outstanding Policy Term in months.</p> <p><i>Where outstanding Policy Term in months is equal to number of whole months from the date of death to the end of the Policy Term.</i></p> <p>You will have the choice to opt for either ‘Level Income’ or ‘Inflation proof Income’ options. The ‘monthly income applicable at the time of death’ will depend on the option chosen by You and the same has been defined below:</p> <ul style="list-style-type: none"> • Level Income: ‘monthly income applicable at the time of death’ is equal to the monthly income chosen at inception. • Inflation proof Income: ‘monthly income applicable at the time of death’ is equal to the monthly income chosen at inception, which will increase by 10% every 3 years (simple interest) from inception capped at 200% of the monthly income chosen at inception. After the death of the Life Insured, there shall be no increase in the monthly income under this Income Protection Plan Variant.

1.1.2. The Claimant at claim stage will have the option to choose from one of the following payout options (except in Income Protection Variant) at claims stage. In case no payout option is selected by the Claimant, then the payout option 1 (lump sum Guaranteed Death Benefit) will be considered as the default payout option:

- Payout option 1 – *lump sum Guaranteed Death Benefit* - 100% of the Guaranteed Death Benefit will be paid as lump sum.
- Payout option 2 – *monthly income* - monthly payment for a fixed period of 10/20/30 years starting from the next monthly anniversary following the date of intimation of death (“Payout Period”) shall be calculated as per the formula below:

$$\text{Monthly Income} = \frac{\text{Guaranteed Death Benefit} \times i}{\left(1 - \frac{1}{(1+i)^{120}}\right) \times (1+i)}$$

Where interest (“i”) equals to $(1 + (\text{Bank Rate} - 1\%))^{\frac{1}{12}} - 1$

For the purpose of the above calculation Bank Rate shall mean the prevailing RBI Bank Rate as

declared by the Reserve Bank of India. The monthly income shall be determined basis the prevailing RBI Bank Rate on the date of intimation of death, less 1% p.a. The interest rate will be revised only if the RBI Bank Rate changes by 50 bps or more from the RBI Bank rate used to determine the prevailing interest rate (reviewed on 1st day of every quarter). As the interest rate will be reviewed at the beginning of each quarter, any change in interest rate will be applicable from 1st day of the next quarter to allow sufficient time for making necessary system changes.

- c. Payout option 3 – *partial Guaranteed Death Benefit plus part monthly income*- If the Claimant chooses this payment option, We will pay the proportion as may be selected by the Claimant of the Guaranteed Death Benefit as lump sum and the remaining Guaranteed Death Benefit would be payable as monthly income. The lump sum proportion shall be in multiples of 10% of Guaranteed Death Benefit.

Note: In case monthly payout option has been selected whether under (b) or (c), above then during the Payout Period, the Claimant may commute the outstanding monthly income. In such case We will pay the present value of the outstanding monthly income at the same interest rate used to determine the monthly income.

1.1.3. In case Terminal Illness Benefit claim has been paid, then the Guaranteed Death Benefit shall be reduced to the extent of the Terminal Illness Benefit already paid.

1.1.4. In case You have selected 'Income Protection Variant' as the Plan Variant, the above commutation option will not be available under the Policy, instead the below commutation option will be available:

- I. At any time after the death of the Life Insured, if the Claimant would subsequently like to get a lump sum instead of the income payouts, a discounted value of the outstanding income instalments shall be paid as a lump sum. The discounted value shall be calculated using a discount rate as 10-year G-Sec yield (basis FBIL website) plus 2%. This will allow the expected future economic environment at the time. The "10-year G-Sec yield" for the financial year ending 31st March (every year) will be considered for determining the discount rate.
- II. On grounds of simplicity and operational ease, the discount rate will be revised only if the '10-year G-sec yield' changes by 100 bps or more from the previous '10-year G-sec yield' used to determine the prevailing discount rate (reviewed on every 31st March). As the discount rate will be reviewed at the beginning of each financial year, any change in discount rate will be applicable from 1st July to 30th June to allow sufficient time for making changes to the system.

The current discount rate is based on '10-year G-sec yield' of 7.31% p.a. prevailing as of 31st March 2024 plus 2% i.e. 7.31% + 2% = 9.31% compounded annually.

Lumpsum amount=Commutation Factor x Monthly Income chosen at Inception

Note- The 'Commutation Factor' will depend on the Policy Term, date of death and the outstanding Policy Term in months. The outstanding income instalments are calculated as the difference between the outstanding Policy Term in months and the number of months for which income instalments have already been paid, if any.

1.1.5. The option to convert lump sum into monthly income payout shall not be available under claims against Terminal Illness and Maternity Cover.

1.1.6. Point of Sale Policy: In case this Policy is sourced as a point-of-sale Policy, the following conditions shall apply:
